“Delicate and fine red wines”

Bordeaux Rouge is undoubtedly essential to Château La Freynelle. Its soil covers about 60% of the vineyards. This wine is characterized by a variety of aromas favoring the expression of fruit with fresh and delicate aroma arising from the assembly of Merlot and Cabernet Sauvignon.

> Method of culture:

Responsible with no systematic fertilization, pest control at minimal dose.

> Vinification and aging:

Mechanical harvesting at optimum aromatic maturity. The grapes are crushed, de-stemmed and then tanked. Fermentation in stainless steel vats around 25 °. The duration of maceration (15-25 days) will be determined depending on the vintage and the potential of each plot and following the tasting. The wines are aged for 12 months in tank with regular withdrawals to provide the oxygen necessary for the evolution of the tannins.

> Serving tips:

Fine and pleasant to drink young, this wine can be enjoyed after a few years of aging. It accompanies beautifully with poultry, red meats and cheeses. Temperature around 19 ° C.

TASTING NOTES

Beautiful bright garnet color with purple hues. The nose is very expressive with aromas of red fruits and spices. Mouth provides the same intense feel of ripe fruit. The tannins are fully melted and smooth. Château La Freynelle is marked both by the roundness of Merlot and the Cabernet Sauvignon power. The soil and the expertise of the entire team of Château La Freynelle fully expressed in this balanced and tasty red wine.

CAPACITY AND PACKAGING

Cap: DIAM technical cork or screw cap
Bottle: Bordeaux Eco-Friendly green color
Carton: 6 bottles laid horizontally or 12 bottles standing
